CHIC DESIGNS - PERSONAL SERVICE

Large Inventory

We have over 1 million board feet in stock. We have tens of thousands of square feet of milled flooring and wallboard pre-bundled, ready to ship.

Immediate Shipping Program

We have flooring and wallboard designs milled, ready for immediate shipping. Same day/Next day shipping is available for multiple standard products.

Nationwide & Global Sources

We have our own warehouse in Lexington, Ky to kiln dry, mill and ship all from one location. We also have accumulated sources from across American and several countries around the world to maintain a consistent supply of premium eco-friendly reclaimed wood.

Environmental Fingerprint

We have reclaimed millions of pounds of salvaged wood prohibiting many more millions of CO2 from negatively impacting the environment.

WHAT MAKES US DIFFERENT?
WE DESIGN IT.
WE SOURCE IT.
WE MANUFACTURE IT.
SO YOU CAN GET IT HASSLE FREE.

Feeling overwhelmed by the process of choosing reclaimed wood products? We have simplified the entire procedure for you. Let us help you remove all the hassles and delays and deliver to you the top quality you are looking for in antique planks.

RECLAIM

We have a huge global network of suppliers who specialize in the deconstruction of old barns and structures. Our suppliers diligently remove siding, timbers, and other usable materials and deliver them to our manufacturing facility in Lexington, KY (the horse capital of the world) to be redeemed and repurposed. Beyond the material we work with, we partner with our network of organizations and ministries to connect with men and women coming out of difficult backgrounds and circumstances who need a second chance. Essentially we make second chance wood by second chance people.

REDEEM

Our skilled craftsmen spend countless hours washing, metal detecting, milling, puttying, sanding, and finishing our products to bring them back to life. In the same way, every day we are working to break the stereotypes of incarceration and addiction. We remember that we are all broken and in need of a community that believes in who we are and who we can become.

REPURPOSE

We love seeing the repurposed designs created from our antique wood that transform homes, offices, and the spaces people live and work in, lining interiors with warmth as well as the story behind the material they're laid with. Even more so, we are inspired to see our coworkers find redemption and purpose in their work and lives. We desire to be a small but important part in reshaping how society thinks about incarceration, addiction, the environment, employment, stereotypes, interior design, and the value of work... one stick of wood at a time.
